EXAMINER'S COMMENT

1. In the previous office action, the examiner rejected the claims directed to the measurement of the change in mass. Applicant responded, but appeared to misconstrue the basis for the rejection. In particular, the examiner was not inquiring about how a change in mass could be detected (as the applicant appeared to construe the rejection), but rather how a change in pKa would have resulted in a change of mass. However, the examiner has reconsidered the rejection in view of paragraph 0022 where it states that a change in mass would have resulted from a reaction between the polymer and the analyte. Hence, the examiner will withdraw the previous 112 rejection and the claims directed to the measurement of a change in mass are hereby enabled.

2. The claims are hereby allowed in view of the applicant's amendment of 2-13-2004.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kaj Olsen whose telephone number is (571) 272-1344. The examiner can normally be reached on Monday through Thursday from 6:30 A.M. to 4:00 P.M. and on alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam Nguyen, can be reached on 571-272-1342. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
